

Setting Up Your E-mail in iPhone [IOS 14]

This tutorial shows you how to set up iPhone to work with your e-mail account.

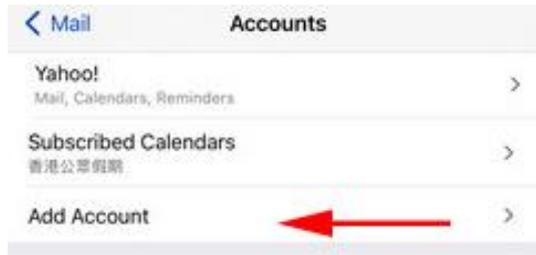

1. Open **Settings** on your iPhone and tap on **Mail**

2. Tap **Account**

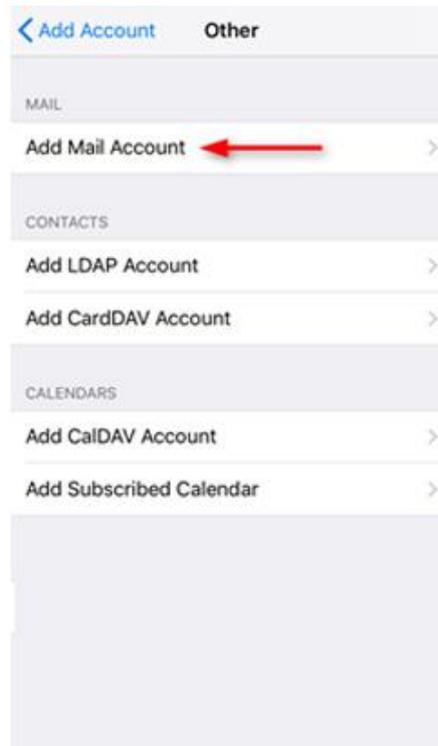

3. Tap **Add Account**

4. Select **Other** as account Type

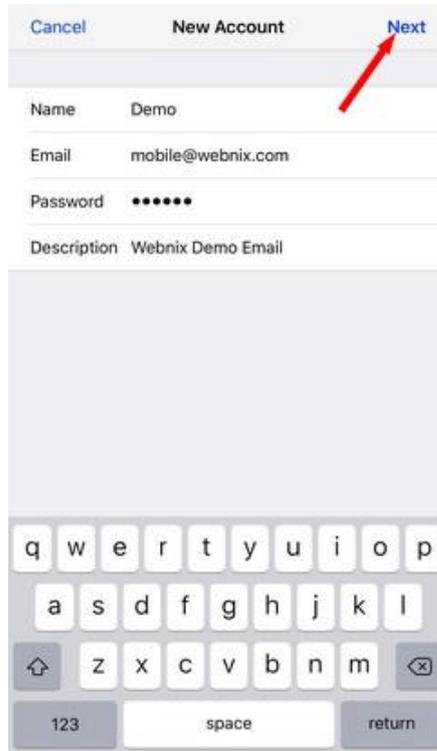

5. Tap **Add Mail Account**

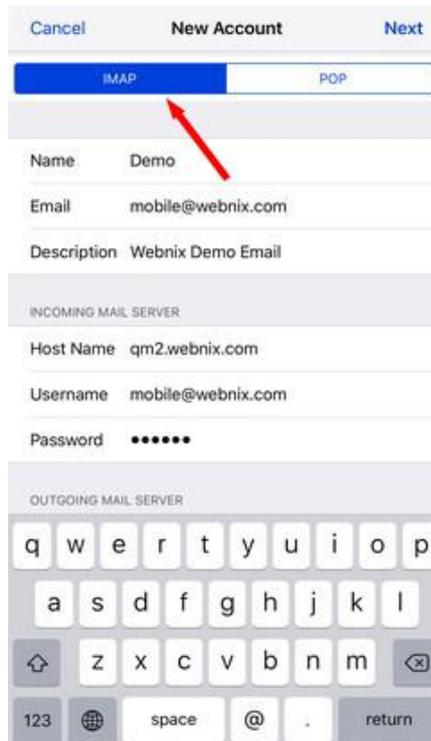

6. Enter your Account Details for the email you want to add:

- **Name:** Enter your first and last name.
- **Email:** Enter your e-mail address.
- **Password:** Enter the password you set up for your e-mail account.
- **Description:** Enter your e-mail address again or other description name

7. Tap **IMAP** as the account type

8. Enter your server setting as below:

Incoming mail server (IMAP / POP)

- Host Name: **mail.yourdomain.com** (E.g. your domain name is **yourdomain.com**)
- User Name: Your email account
- Password: Your email password

Outgoing mail server (SMTP)

- Host Name: **mail.yourdomain.com** (E.g. your domain name is **yourdomain.com**)
- User Name: Your email account
- Password: Your email password

Tap **Next** to continue

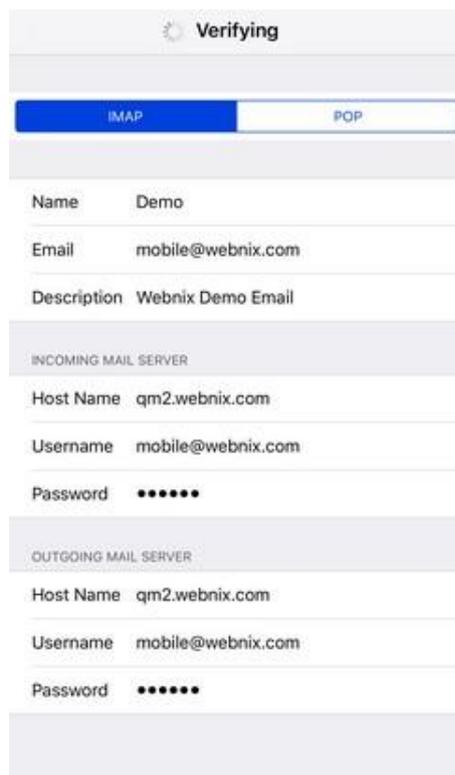

The screenshot shows the 'New Account' setup screen on an iPhone. At the top, there are three buttons: 'Cancel', 'New Account', and 'Next'. Below these is a 'Description' field with the text 'Webnix Demo Email'. The screen is divided into two sections: 'INCOMING MAIL SERVER' and 'OUTGOING MAIL SERVER'. Each section has three fields: 'Host Name' (qm2.webnix.com), 'Username' (mobile@webnix.com), and 'Password' (represented by six dots). A red arrow points from the 'Next' button to the 'INCOMING MAIL SERVER' section. At the bottom of the screen, a virtual keyboard is visible.

Webnix Technology Limited

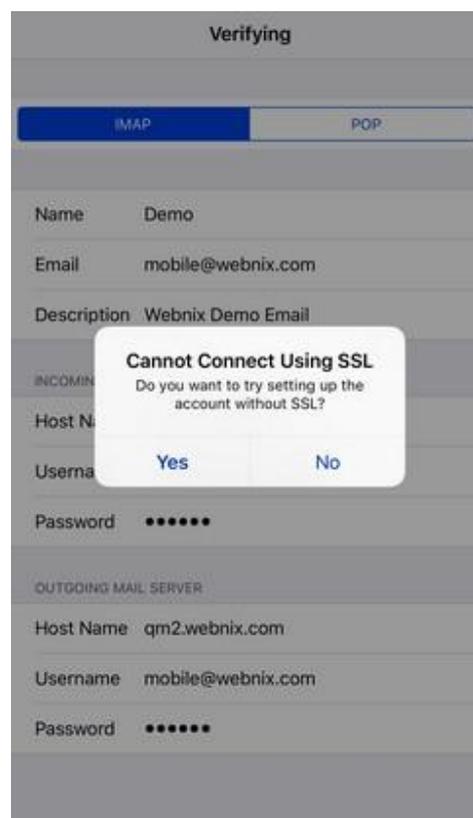

Rm 802, 8/F, Koon Fook Center, No.9 Knutsford Terrace, TST, KLN
Email: cs@webnix.com
Tel: (852) 2720-8429 Fax: (852)2729-7751

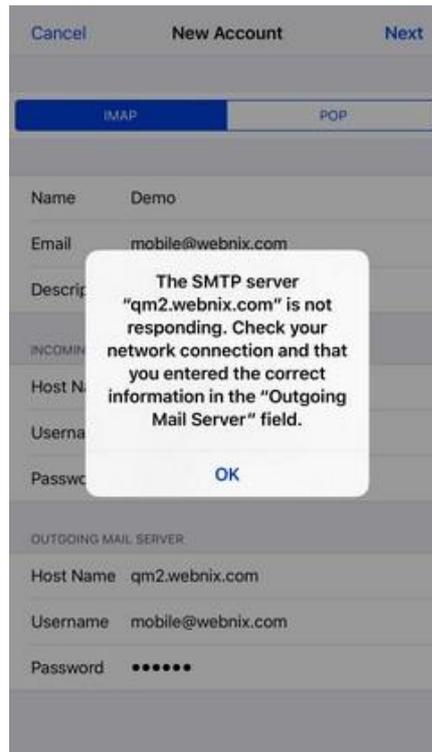

9. Wait for account verification (*it takes around 4-5 minutes*)

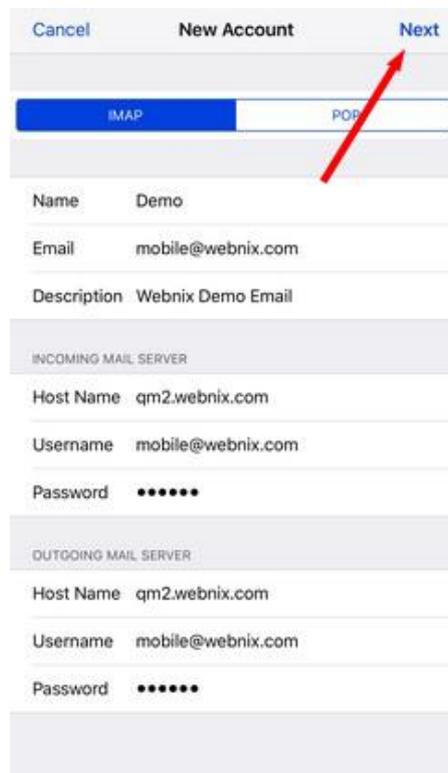

10. When you get the popup message, tap **Yes**

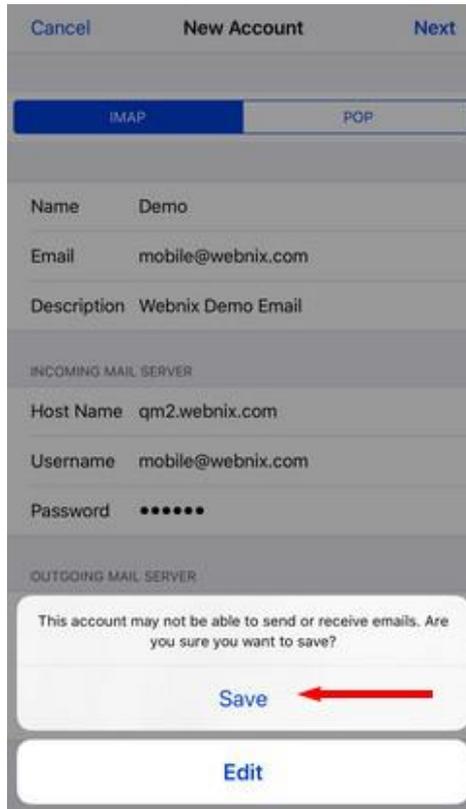

11. Wait for account verification again, and it will show the popup message again. Tap **OK**

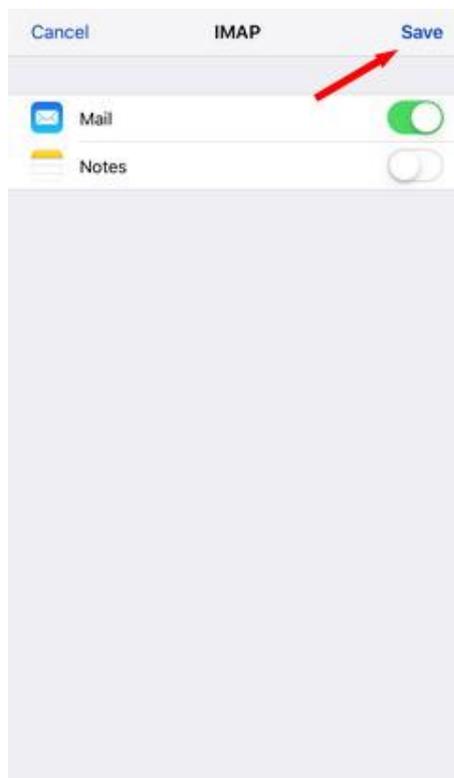

12. Tap **Next**

13. Tap **Save**

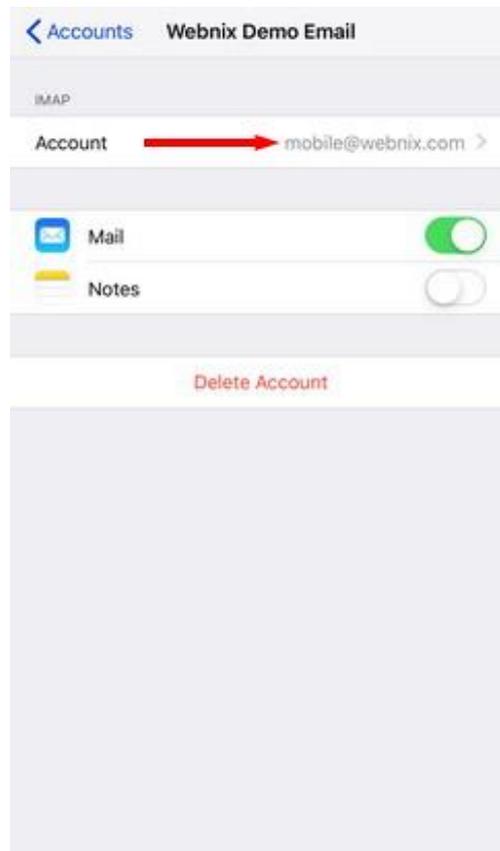

14. Disable syncing of Notes and tap **Save**

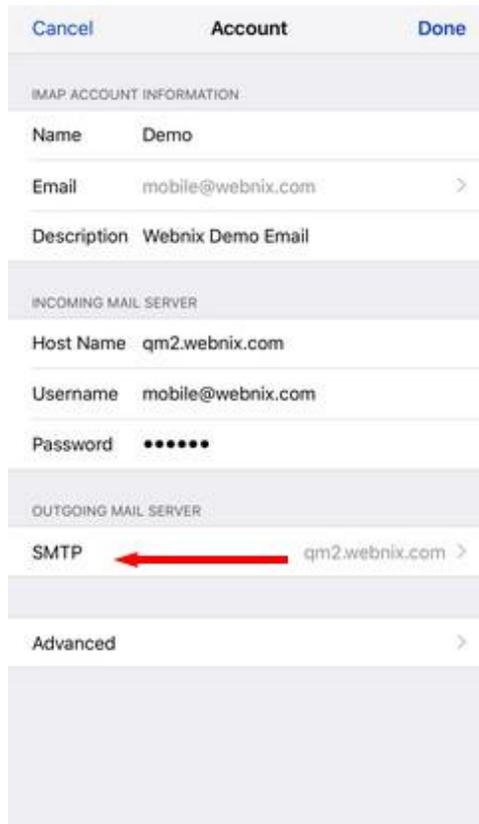

15. Tap your account and check the setting again

16. Tap your account and open setting page

17. Tap **SMTP** under **Outgoing Mail Server**

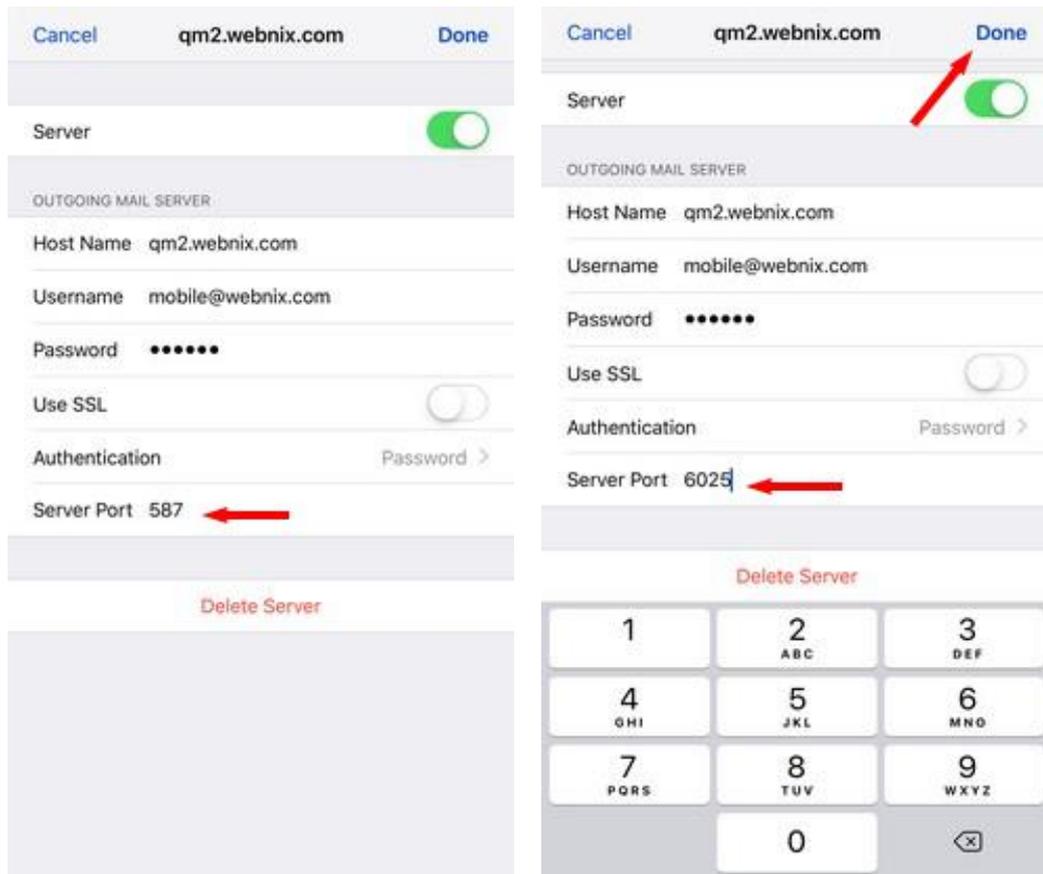

18. Tap your primary server

**Webnix Technology Limited**

Rm 802, 8/F, Koon Fook Center, No.9 Knutsford Terrace, TST, KLN
 Email: cs@webnix.com
 Tel: (852) 2720-8429 Fax: (852)2729-7751

19. Ensure "Use SSL" is off. Change Server Port No from **587** to **6025** and tap **Done**

20. After the above setting is completed, please tap **Advanced** at the bottom of your screen

21. Check mailbox behaviors and keep email at server side as below

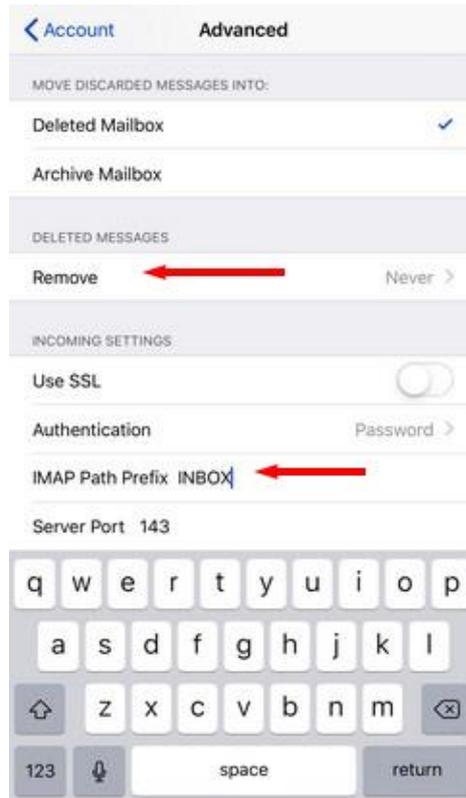

- Move Discarded Message into: Deleted mailbox: Enabled
- Use SSL : Off
- Server Port: 143

22. Tap Remove under Deleted Message, and Tap Never

23. Go back the advanced page. Enter IMAP path prefix and input **INBOX**

24. Your account setup is completed and you can check your email now
